November 22, 2019

Secretary Steven Mnuchin
U.S. Department of the Treasury
1500 Pennsylvania Ave NW
Washington, DC 20220

Dear Secretary Mnuchin:

On behalf of over 150 small business associations, we commend you on providing clarity to family businesses working towards passing ownership to the next generation. Treasury Decision 9884 makes clear that taxpayers will not face a “claw back” tax on transfers made under the current Estate/Gift/GST exemptions if those exemptions revert back to pre-TCJA levels as scheduled after December 31, 2025.

Family businesses face a number of hurdles when moving to the next generation. Many large family businesses compete with multi-national corporations that do not face any equivalent of a 40% estate tax at the passing of each generation. Treasury Decision 9884 provides a more predictable path for family owned businesses during the complicated process of succession planning.

Family Business Coalition supports the positive changes to the Estate/Gift/GST made in the President’s signature tax cut bill the Tax Cuts and Jobs Act. Our organizations have urged Congress to permanently extend the individual portions of TCJA including the doubling of the Estate/Gift/GST exemption. The attached FBC letter supporting Congressmen Jason Smith (R-MO) and Sanford Bishop’s (D-GA) Death Tax Repeal Act makes clear that the only permanent solution for family businesses is full repeal of the death tax. We urge the administration to continue prioritizing full and permanent death tax repeal as official administration policy.

We thank you for your leadership on this issue and look forward to continuing to work together towards a more predictable and prosperous future for America’s family owned and operated businesses.

The Family Business Coalition (FBC) is a diverse collection of organizations and industry groups united for the common purpose of protecting America’s family businesses across the country. FBC works to implement tax policies that help family businesses of all sizes, create jobs, and continue to the next generation.

Senator John Thune  
511 Dirksen Senate Office Building  
Washington, DC 20510

Congressman Jason Smith  
2418 Rayburn House Office Building  
Washington, D.C. 20515

Dear Senator Thune and Congressman Smith:

The undersigned organizations support your bill, the Death Tax Repeal Act.

We appreciate your work to lead the country towards a common sense tax code that does not impose a destructive double or triple tax at death. We support full and permanent repeal of the federal estate tax for the following reasons:

Repealing the death tax would spur job creation and grow the economy. Many studies have quantified the potential job growth that would result from estate tax repeal. In 2017, the Tax Foundation found that the US could create over 150,000 jobs by repealing the estate tax. A 2012 study by the House Joint Economic Committee found that the death tax has destroyed over $1.1 trillion of capital in the US economy – loss of small business capital means fewer jobs and lower wages. Lawrence Summers, former Secretary of the Treasury under President Clinton; Alicia Munell, member of President Clinton's Council of Economic Advisors; Joseph Stiglitz, a Nobel laureate for economics; and Douglas Holtz-Eakin, former CBO Director have all published work on the death tax's stifling effect on job growth and the economy as a whole.

The death tax contributes a very small portion of federal revenues. The estate tax currently accounts for approximately one half of one percent of federal revenue. A 2016 Tax Foundation analysis found repeal of the death tax would increase federal income taxes by $145 billion over 10 years using a more realistic, “dynamic” economic analysis. In addition, the death tax forces family businesses to waste money on expensive insurance policies and estate planning. These burdensome compliance costs make it even harder for business owners to expand their businesses and create more jobs.

A super-majority of likely voters support eliminating the death tax. Poll after poll has indicated that a super-majority of likely voters support repealing the estate tax. Typically, two-thirds of likely voters support full and permanent repeal of the death tax. People instinctively feel that the estate tax is not fair. A 2017 NPR/Ipsos Poll found that 65 percent of respondents favored repealing the estate tax, including 51 percent of self-identified Democrats polled.

The death tax is unfair. It makes no sense to require grieving families to pay a confiscatory tax on their loved one’s nest egg. Far too often this tax is paid by selling family assets like farms and businesses. Other times, employees of the family business must be laid off and payrolls slashed. No one should be punished for fulfilling the American dream.
The negative effects of the estate tax make permanent repeal the only solution for family businesses and farms. Your legislation will help America’s family businesses create jobs, expand operations, and grow the economy. We thank you for your leadership on this important issue.
